Union Pacific Coal Co.

Rock Springs, Wyo.,

June 12th 1892

Mark Luson being duly sworn and sworn by Coroner Sked, said that he went into the room 15 min. after the accident. I found Mr. Johnson lying about 3 feet from where he was hurt. I learned then that Mr. Miller was tamping a shot about 30 feet from where Johnny Johnson was a leg. He heard the rock fall and Johnson call to him to come and take the rock off. He went and did so and placed in the position in which I found him. I found him sitting leaning against a prop with his feet across the track. We put him in a car and brought him outside. He told me that he felt no pain except that leg was broken.

The piece of rock that fell was about 6 inches thick and between 3 1/2 feet & 4 feet long and 2 feet wide

Signed Mark Luson

Rock Springs Wyo June 13th 1892

Robert McMillen being duly sworn and sworn by Coroner Sked, said that when I went to the room to tamp some holes while I was up there he went to take some rock down. He took a wedge to drive in to take it down where he could not get it down on that side he got down and went under it for purpose of driving the wedge from the other side.

I heard the rock fall and heard him hollowing and I then went and took rock off him. After that I sent a Chinaman to have a car brought down for purpose of taking him outside, and with the assistance of Mark Luson and other others we took him outside.

"Question" Do you think the place properly timbered Ans. Yes.

"Question" Was there no other way to get to the other side with out getting under rock. "Answer" Yes. by going about thirty or forty feet around it.

Signed Robert McMillen

STATEMENTS OF WITNESSES.

On the 17th day of August. I was working at my usual employment fixing rollers, was coming out to dinner when about #2 empty trip I heard some one groaning I went to the place I heard the sound and found Ah. Lung laying on the track. I think the empty trip struck him going down I helped take him home

A Paratolatic X

Verdict

The Jurors duly empaneled and sworn to enquire into the death of one Ah. Lung, do find, that he came to his death on the 17th day of Aug. A.D. 1892 on the slope of #1 mine, at Rock Springs, Sweetwater Co., Wyo. by being struck by an empty trip of cars. And we do further find that no other party or parties was to blame for said accident

Foreman

Victor Anderson

Soren Larsen Clerk

Testimony of witnesses before Jas. L. Skedd, Coroner, to enquire into the death of Ah. Lung

Antone Paratolatic being first sworn testifies as follows I am in the employ of the Union Pacific Coal Co. at Rock Springs Mine #1 employed fixing rollers in the main slope. I was in the mine on the 17th of August & was going to dinner & I heard some one groan and I found a Chinaman laying on the track. I saw the Mr. Boss Jno. Parker coming up on the trip & told him that Ah. Lung was hurt I helped to take him out of the mine. Question. What caused him to be hurt, Answer. The trip must have struck him. Question what part of his body was injured Ans. his head was cut

Antone Paratolatic ^{his} Mark

Jno Sworn & testifies as follows

I am mine foreman of #1 Mine at Rock Springs Wyo. I was going out for dinner was riding on a loaded trip. When about #2 empty I heard some one call on me. I jumped off the trip & asked a Paratolatic if any thing was wrong. He told me Ah. Lung was hurt. I asked him if he knew what hurt him. He supposed it was the trip but did not see him. I then went up to the place where Ah. Lung was laying. I asked him if he was badly hurt and he pointed to the other track indicating that he was hurt by the trip going down. There being a double track in this mine. I then proceeded to take him home. I believe his right arm was broken & badly hurt about the head. He was hurt about 15 min to 2 o'clock and lived about 11 hrs

STATEMENTS OF WITNESSES.

J. Francisco Pacheco do here make a statement of how
one Antonio Sanclanale did meet with an accident
in #3 Mine Rock Springs on Tuesday, 18th day of Sept '92

He and Antonio had just gone into our room which
is 44 room and 22 Entry and the first thing Antonio done
was to sound the roof to see if it was solid and while
he was knocking the roof with his pick some rock fell
on his foot and broke his ankle

The reason that the roof was loose was, we had drilled
our hole 1 inch into the roof the day before while blasting
our coal down, and the shot had broke the roof. we had
prop within 6 feet of the face of coal and we had plenty of
props in our room at the time of accident

STATEMENTS OF WITNESSES.

Rock Springs Wyo. Dec 3rd 1892
 I was working with my brother Chung Yot on the morning of December 3rd 1892. he was mining under the coal. It was not spragged.

Witness

Testimony of John L. Brooks duly sworn and subpoenaed by
 Coroner asked says I worked for the Union Pacific Coal Co. No 17 Room north Entry, # 8 Mine, at 8 o'clock A.M. on the third day of December A.D. 1892

I was working and my attention was drawn to the Chinaman crossing our room #17 to fetch two other Chinaman out of No 19 room. I thought some thing was the matter and I went into #16 room and when I got up to the top of the room I found three Chinamen standing over a dead body. I caught hold of Chung Yot and felt of his pulse and life was extinct and then we carried the body down to the entry, and then they took him home.

From the position I found him in he was mining underneath the coal and about 300 pounds of coal fell on him. I do not think the accident would have occurred if had of spragged up the coal. The room was in good condition as any practical miner would wish to see.

John L. Brooks

We the undersigned jurors duly empanelled and sworn by Coroner asked over the body of Chung Yot do find that the deceased came to his death on the third day of December A.D. 1892 in No 16 Room north entry, No 8 Mine, Rock Springs sweetwater Co. Wyo. by a fall of coal while in the act of undermining the coal.

And we do further find that no other party or parties was to blame for said accident, We examined the room and found it in first class condition

Neil W.isl

Thomas Phillips

James M. Janssen Clerk

Testimony of David M. Elias duly sworn and subpoenaed by Coroner asked says

I was on my way from the upper entry on the plane when near the bottom the man that tends to the Plane, Thomas Wetherly, he hollowed to me that there was a Chinaman killed on the straight Entry. I started in and then had Chung Yot in the car coming out. I told them to send him up as soon as possible and I went into his room and examined it. I found the room in good condition. I went out and went up the shaft and sent the body home

D.M. Elias

STATEMENTS OF WITNESSES.

All that I know about the wound of Neil Snijders hand this is it.

When I was coming out past No 6 Room he stopped me I asked him what was the matter he told me that a car had ran over his hand, I asked him how he did it.

He said that when the man in no 5 Room said something to him he thought there was something the matter he said and he got off his trip to see what he meant by it and he went to cross the coupling of the cars and slipped that was all he told me about it.

Xox Mine Jan 9th 1893

We were in Entry 7 Room. On the 9th day of Jan 1893
 About 8³⁰ p'clock when Chas Pennington was hurt with a fall
 of rock. He knew the rock was loose because he came after us
 to go and take it down, and we went to take it down, and
 we were then to take it down when it fell on him, he got a car
 to load and he wished to load it while we were taking down
 the rock as it was about 15 feet back from the face of the Room
 and there was some coal on the track and he went to clean
 the track to get the car up. and while he was cleaning the track
 the rock fell and caught him on the back and hip
 We told him the rock was to loose to go in below it, there was
 no one to blame but himself for the accident
