

### **How do you evaluate your Summer Reading Program?**

- Surveys, program attendance, participation and numbers completing the entire SRC
- We keep stats on sign ups and completion.
- I think it needs to stay fun. There was some software program for SRP where kids would have to write reports. What a drag that would be! Kids are so over-tested, over-scheduled, etc., they need summer to be fun.
- We also do a big customer service survey in the summer, which gives us a lot of insight at a time when we are so busy.
- I like the badge idea. Maybe that could be an addition to the regular program....especially for kids who get to go do tons of stuff all summer and don't get to come weekly to the library...
